# A B-25 BACK IN BELGIUM

Dear Friends,

Our B-25 is now on final approach to Brussels.

During the last months, we were on an odyssey where sometimes, we feel like young airmen during WWII crossing Europe to the UK. The trip was long, some days it was dangerous, some days we experienced hostilities but some other days we were in good hands, helped by friends.

As for these young men we want to remember, it will be time before our dream will be a reality.
But now, we can already announce you, your project is safe and we will gives you good news at short notice.

To all of you, Thanks you

The B-25 back in Belgium Project team

# They Thanks you
