

# A B-25 BACK IN BELGIUM

Brussels, December 26th, 2005

Dear Friends,

Here is the latest news.

The aircraft is now officially the property of the Brussels Air Museum Foundation who provide us with administrative support.

The first parts of our Mitchell are now in Belgium. In November, Vincent, Eric, Nicolas and Jean-François visited the UK to bring back all the parts that can already be transported before the winter.

André Bar joined the main party on the project. We are very happy to welcome him!

Currently we are planning to bring back the main aircraft parts in June 2006.

We are also preparing the first publication relating to our project to thank our sponsors.

Our task in keeping the memory alive of the crews that flew B-25's is not finished and we still need your support for our common project especially with regards to the transportation.

To all of you and your families, a Merry Christmas and a Happy New Year

The B-25 back in Belgium Project team

# They Thank you
